WEDNESDAY, APRIL 19, 1849.

The Post Office Department.

The loco party when in power in the general government have made it a boast and a cardinal element in their creed, that to the victors belong the spoils Now they are in a minority and removals begin to be made, although as yet, to only a very partial extent, in the Post office department, yet Mr Ritchie of the Washington Union heads a petion to President Taylor asking that Col Fitz Henry Warren s appointment as head of the Appointment Bureau of the Post office Department may be rescinded! The object of this is to prevent the removal of certain postmasters who have rendered essential service to the administration of Mr Polk, and who still stand ready to aid in bringing their party into power

Judge Collamer, the Postmaster General, stands unequalled for industry, and with an integrity which has bitterest enemy has never yet assailed He has a large experience in the workings of our political institutions—a comprehensive intellect and a love of earnest work which eminently fit him for the discharge of his high duties He knows full well the extent to which the Whigs have been proscribed, and he has investigated the tricks which many of the more reckless and interested of the loco office seekers in evading and violating the laws of the United States prescribing their duties — He is disposed to remove such men from office and to give their places to men better disposed to fulfil their public duties Such is the calm bearing, and the great purity of life and character of Judge Collomer that the loco press have not yet quite screwed themselves up to the sticking point of attacking him by their usual missiles of vituperation and detraction

As removals of Postmasters are made in the way of correcting the wide spread proscription which has been exercised, and of introducing greater purity and faithfulness into the department, the loco press begins to show its teeth — The political heaven of the regular trained locofocos, like the postmaster editor of the Bangor Democrat in office, and as events serve to remove this, or to thicken about the chances of its being lost, then, the administration must be attacked, though as pure as the angels of heaven, as a loco of eminence and of the administration of John Quincy Adams But just now the leading locos are a little wary, particularly those in office, like the postmaster editor of the Bangor Democrat, and the plan is tried of demolishing by detail Hence the most wanton attacks on the character and appointment of Col Fitz Henry Warren as Second Assistant Now the fact that Col Warren has been singled out as the mark for locofoco malignity should be, and probably will be sufficient to cause him to be more generously sustained by the Whigs But independent of this, as well as inspite of this, the appointment of Col Warren is a popular one with the Whigs In Iowa where he is best known, and where his political influence has been most felt, his appointment is highly applauded,

much needed reform shall have been effected in the Post Office Department. While he manfully goes forward in this work, the abuse and howling, the slanders and calumnies of the loco press, will but serve to cause him, and the administration of which he makes a part, to be more closely cherished by the great Whig party by whose efforts the administration was brought into power

It was not uncommon fitness of qualification —it was not mere accident which caused Fifteen Thousand Postmasters in the United States to be locofocos, like the Postmaster editor of the Bangor Democrat The same causes, while Judge Collamer and Col Warren occupy their present positions will not permit those offices to be held so exclusively by a now justly defeated party

The apology for a portion of the attacks upon Col Warren is, that some years since he was unfortunate in business in Massachusetts We know nothing of the truth of this, but whether true or false, it betrays great baseness to refer to it in this connection, since the same has been the misfortune of many men in all parties But Col Warren since then, has been a zealous laborer in the new country, and has there by his vigor of intellect, and his integrity and uprightness of purpose, caused his influence to be felt, and regarded He was one of the Taylor Electors of Iowa at the Presidential election, and the Iowa Telegraph, at Dubuque, closes a notice of the appointment, by remarking—"perhaps no one in these parts has received so large a share of abuse at the hands of the opposition, as he Many a time, and oft, have they winced under the lash of his pen We can say of him, that he has no superior as a writer, he is an accomplished scholar, and a gentleman in the true sense of the word."

Such testimony from his own State ought to put to silence forever every word of reproach respecting the past The real though disguised objection against Col Warren by the locos, is his ability to ferret out their wrongs and to correct them, and as a course of duty on his part subjects him to loco abuse we doubt not he has philosophy enough to bear it calmly, and to keep doing

☞ Messrs Shaw & Merrill in this city are generally upon the look out for whatever is new, beautiful and useful which will gratify their numerous customers They have in this spirit recently obtained the right to manufacture and vend an improved Bedstead which is exceeding ly simple in its operation but which causes it to be firm, easily set up, not liable to get out of order, and which furnishes no sort of harbor for vermin In fact it is a complete beg-bug extinguisher. The whole affair is so simple that a bedstead may be taken down or put up in two minutes—neither mackings or cords are made use of, but wooden cross bars are laid upon a couple of iron rods which cause the bed to be elastic and agreeable

Just call into their furniture ware room on Main street and examine one of these Bedsteads now on exhibition.

☞ It is dishonest in the Bangor Democrat to put forth its inferences and application of principles, as the statements and facts of another

The Lowell Courier states that last week at Windham, N H, two Irishmen who had been discharged from employment on the Lawrence and Manchester railroad, blew up, in the way of revenge, forty-six kegs of powder The explosion was terrific, having been felt like the sound of an earthquake, in the neighboring towns One of the Irishmen, probably the one who applied the match, was blown sky high and to atoms. The other, farther from the scene of operations, escaped without much injury except a good singeing, and blacking

☞ The Democrat speaks of the Whig as a rich paper Such an opinion, even if correct, ought not to be taken as a justification for the large stealings which the Democrat makes from it About the whole stock in trade of the Democrat is drawn from the Whig

High Interest

The following paragraph we cut from the Money Market of the New York Express It reveals one great fact perhaps a startling one, that capital has contrived in its several localities to increase the rates of interest to an amount which, twenty years since, would have been deemed disgraceful for any man of fair business reputation, or who had any friends having confidence in him, to pay Under the operations of a somewhat different monetary system from that now in operation in this country, the best business paper could always be cashed at a low rate of interest This left the local banks anxious to do the local business paper, and hence the rates of interest could not run up The momentary necessities of the business community, occasionally, to get their paper cashed has caused them to pay heavily in the way of interest, and thus they have been mutually bidding upon each other until now they begin to be alarmed and puzzled at the legitimate effects of their own conduct But we will not attempt to explain what perplexes a New York money man —

'The state of the money market continues to puzzle the wisest heads, and no good reason can be given why, with exchange in Europe leading to the importation of specie in large sums, and considerable sums dropping in all the while from California, good notes should be difficult to negotiate at 12 per cent, and even at higher rates There is something wrong in a system, which keeps money in New York often at 1½ per cent per month, when in London only 12 or 13 days off, money is plenty at 2½ or 3 per cent per annum The philosophy of it puzzles the wisest financiers, some attribute it to the "Sub Treasury," others to the 'California fever' others yet to "the Railroad calls —but with exchange on London dull at 106, and with business generally prosperous, and confidence great, none of these causes account for these enormous rates of interest,—not even the perplexing operations of the Sub Treasury Government collecting all its customs exclusively in specie, and thus struggling for itself the precious metals, while all other business is done in mixed currency of paper and specie, is undoubtedly a source of annoyance, anxiety, and pressure,—but with exchange in Europe three per cent below par, all this would not be very serious, if there were not other hidden, and as yet, unexplained causes lead ng to rates of interest, that absolutely swallow up all the profits of business and of labor, in the profits of capital

For the Daily Whig and Courier.

Spring.

The heart rejoices to welcome this most glorious proof of God's unbounded love; the happiest season of the year. Old winter has withdrawn his shackles from the earth, and nature rejoices to be free; the blades spring, the buds burst, and flowers open to the sun; the trees throw out their young leaves to kiss the clouds, all nature acknowledges God — Why should not man learn a lesson by this returning season? the goodness of God passeth our understanding, he has spared our lives through another year, and it is our duty to exert ourselves to throw off the shackles of sin and live a life pleasing and acceptable to Him "HORNBY"

Letter of Col. Fremont.

Mr Benton has received a letter from Col Fremont, detailing the dreadful privations and misfortunes which attended his journey, over the Rocky Mountains

The accounts already published scarcely come up to the horrors depicted by Colonel Fremont

The number of deaths is, however, not quite so large, but it is too true, that the survivors were compelled to feed on the bodies of the dead

Col Fremont throws the whole blame upon the ignorance of the guide, a man who bore the highest character, and who had been guide for years for Gov Dodge, but on this occasion he became completely bewildered He took the party by a route which should only have required three days travelling—but occupied a much longer time, and through his ignorance or carelessness they had to retrace their steps amid dreadful privations and loss of life, the guide suffering as much as any one

When Col Fremont wrote they were doing well, and have arrived, no doubt before this, in California

Col Benton is collecting from Fremont's letter an account which will be at once published Some of the details are so terrible that he is obliged to suppress them

Old Zack's Jug.

The following excellent temperance story is told by the editor of the Grand River Eagle If the old hero can introduce the use of the kind of jug recommended by him he will have achieved a victory over his country's direst, foe, which will far transcend the trophies of the battle field

'We were highly amused yesterday On the bridge that passes the tumbling water of the Grand Rapids we met a hale old man, with eleven sons seven daughters thirty seven grand children and his own wife—the only one he ever had—with numerous horses carts, wagons, oxen, cows, and furniture of every antiquated appearance, among which were to be seen cradles or babies, cradles for grain, spinning wheels, pots kettles, and almost every thing requisite for a settlement, such as fifty-seven blood relations will make in the Grand River country After stopping the train and making many inquiries, we asked the old gentleman what use there could be of a bottomless jug, which was carefully laid in a safe place, among his domestic equipment, and received the following reply:

'Why, sir, I am a man of many years, and lots of children, and have worked other people s land all my days—paid from 4 to 9 bushels of grain an acre rent, for so doing, have all that time used a jug with a bottom in it, and I got sick of feedin other people with my hands, either landlord or rumseller, so I sent 7 of my boys to Mexico to fight for some land—and they all got back safe, after fighting with Gen Taylor, time enough to vote for him—and they got seven quarter sections of land, that, please God, will be our own without rent And now, that old jug you see there, (pointing at the bottomless thing) shall hold all the whiskey or rum that will be used in my whole family while I control 'em, because old General Taylor told my son John that a jug without a bottom was the kind of a jug to put liquor in, and if he was my son John he'd serve all the jugs to him just as they did the Mexicans—take away their power to kill us Good day'

Cold Weather.

We fear that the extreme cold of Saturday and Sunday nights has greatly injured the fruit crops in this vicinity —Ice was made in some locations over an inch in thickness, and the ground froze to the average depth of at least two inches The blow-buds of apple, pear and peach trees had started in various places and the probability is that a frost so severe has killed them Orchards with a northern exposure had not perceptibly started, and are probably uninjured What effect such severe cold may have upon the trees themselves, when the 'sap is up" we can hardly predict, though we are not without our fears as to the consequences

Boston Journal

For the Whig and Courier

A Hall for [illegible] in an article in the Boston Courier of the 10th inst relative to the dangers arising from crowded audiences in places without proper means of egress in case of sudden alarm, and as there is so much applicability in those warnings to our own condition, I think you will confer a public benefit by copying the article I am one of many who have been deprived of the pleasure and benefit of our Lyceum for the last two or three years, from the settled conviction that there was imminent danger constantly attending the place of its meeting I know that this institution has suffered seriously in the absence of a large number of our best families for this one reason, and I feel that I am performing a public benefit by calling attention to this subject

The apprehension has been often expressed by cautious men, that we should be called to witness some such dreadful scene of death and suffering as has been seen in Richmond, Montreal and Glasgow

This apprehension has not arisen from mere nervousness and undue caution, or with any idea of injuring the Lyceum

There is a commendable and general desire to encourage and sustain all such measures of moral improvement, and that very disposition of the community demands that a safe and suitable place should be provided

The frequent lectures upon Temperance and other subjects, bring together large audiences and aside from the danger now existing, there is sometimes a want of room We need a building that would accommodate fifteen hundred people I believe there is sufficient enterprise in Bangor to secure such a building, and that it can be done without imposing a burden upon any one Indeed, as a private enterprise, I have no doubt that it would produce a handsome income upon its cost, in its rent to the various societies and objects for which it might properly be used I think the better plan, however, would be, to make it the property of a joint stock company, subject to the management of a Board of Directors

It seems to me that *now* is the best time to move in the matter, and I trust that others will be induced to offer suggestions, and let us go about it with the zeal and public spirit with which our citizens engage in other matters

Should no other individual offer a plan of procedure, I may venture to make some further suggestions—meantime let us discuss and agitate the question Yours, &c

G A T

Nov 16, 1849.

NOTE —Perhaps it is sufficient to say that the article referred to assumes that none of the theatres in Boston, or public halls there, are provided with ample outlets. The London Examiner, takes the same view of the matter in relation to that city Now if such be the fact with regard to buildings which, we suppose with some of our buildings, are so amply furnished with outlets, what ought to be done to remedy the defect here?

We are glad that the subject of a large, convenient and cheap public hall is thus duly agitated attracting attention. What the people mainly want is a definite and feasible plan laid before them Ed.

☞ *Remarkable Cure of a Dangerous Cough, by the use of Buchan's Hungarian Balsam.* Messrs Ingham & Havens, in a letter dated Cato 4 corners, N Y Aug 6, 1849, write "We are entirely out of the Hungarian Balsam, having sold all you left with us, in our immediate vicinity, and in justice to the Medicine, must say with astonishing success A few days since a young gentleman of this town called at our store who had been for months afflicted with a very distressing Cough, and wanted a bottle of Balsam. We told him it was of little use for him to take that, or any thing else, he must die He however took a bottle, and afterwards had another Yesterday he called again very much improved in appearance, and said he was rapidly gaining strength —had it not been for the invaluable Hungarian Balsam he must have died We want some more of the medicine directly"

Pamphlets respecting this Great English Remedy may be had gratis of DAVID BUGBEE and G W. LADD, only agents in Bangor 3d&w a16

Another Physician's Testimony.

Mr Fowle—Dear Sir —I could send you a dozen certificates strong and decisive, of the really *sanative* effects of your *valuable Balsam of Wild Cherry*, within the past twelve months, under my own supervision and direction Indeed, I know of few persons who have used it, comparatively, but commend it in the strongest terms A case of *Asthma* the severest I ever saw, to which I was called a month ago, evinced the *superiority* of the *Balsam*. This disease lasted six weeks and the dyspnœa and suffering were *dreadful*, he sat up every night. The gentleman told me to give him something to last him home (91 miles,) so that he might see his wife and child, and die in peace' I gave him one bottle of the Balsam, and four ounces of syrup squills, direct him to take tea-spoonful doses of best Bordeaux olive oil, when the difficulty of breathing was greatest. Next day I found he had respondent will and made him take six bottles of *Fowler's Balsam of Wild Cherry* home with him as expensive medicine to me to profit. Last week Mr A called and expressed his gratitude to me in the warmest manner said the medicine had saved his life, paid his whole bill, and took six bottles more, and left my office for home, rejoicing Very respectfully yours.

Holden's Alterative and Tonic Mixture,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children supposed to arise from worms, are caused by a deranged state of the stomach and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient and cannot in any case do harm

Home Testimony.

We, the undersigned have our selves or in our families, used Holden s Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

A New Invention.

CONSUMPTION CAN BE CURED

DR WHITE, 52 Main St has the pleasure announcing to the citizens of Bangor and the public generally that he has just invented an apparatus by which the medical properties of agents can be brought in direct contact with the Lungs which renders Consumption, Bronchitis Asthma Croup and all diseases of the *Lungs* or the appendages as susceptable to the influence of Medicines, as any other organ in the human system consequently can be as easily cured, with proper remedial agents

By the use of this instrument the above diseases which have baffled the skill of the whole Medical Profession in all ages of the world are at once rendered comparatively harmless This fact is obvious to every person who is at all acquainted with the Anatomy or Physiology of the human system for remedies taken into the Stomach cannot possibly affect the *Lungs* by affecting the whole constitution through the medium of the circulation of the Blood, or sympathetically, when applied to the external surface of the Chest in either way there is *no direct application* to the diseased parts and this explains *why* the above diseases have proved so universally *fatal* 1w a17

HARTS' VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints Stomach Contractions Irritation of the Nerves Nervous or Sick Headache, Nervous Tremors, Neuralgia Affection, Apoplexy Paralysis, General debility Deficiency of Nervous and Physical Energy and all Nervous Disorders including the most dreadful of all diseases that ever affect the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits Convulsions Spasms, &c Dr Hart would impress it upon the minds of the afflicted that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of the most dreadful of all diseases And its tendency is to insanity madness and death, the most

SKILLFUL PHYSICIANS

of Europe, as well as those of our own country have pronounced Epilepsy incurable And it has been so considered by many until the most important of all discoveries was made by Doctor S Hart, nearly six years since, during which time it has been performing wonders of the most

REMARKABLE CURES

upon record and has acquired a reputation which time alone can effect Physicians of undoubted skill and experience ministers of various denominations as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients charge, and friends, who are thus afflicted use the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable med cine One says, "I have suffered beyond my power of description but now I rejoice in being fully restored to health and happiness" Another says "I thank God in that I am a well man I also feel it my duty to pr claim it to the ends of the earth that those simi larly afflicted may find relief Another says he

EMINENT LAWYER,

and well known in the city says "my son has been afflicted for years with Epilepsy but is now enjoying good health from the Vegetable Extract" Another says he, should and ought to be sounded to the ends of the earth" Another says "Language is entirely inadequate to express my gratitude in full effort for having been the instrument under the blessing of God, restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty three years, and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has effected but to make me whole"

Mrs J Bradley, 115 Orchard street, New York states that she has been subject to Fits for many years and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover Russell co Alabama, who is one of the best Physicians in the State, says that he has been much surprised by which comes under his knowledge

Curtis G Mayberry, Esq formerly Postmaster at Lime Mills Crawford Co, Pa, now living in Erie Co Pa states that for many years past he has been sorely afflicted with Piles, and he now happy to state that a persevering use of Dr Hart's Vegetable Extract has restored him to sound health being entirely free from that worst of all diseases

Mr Stephen E Pratt, corner of Sixth Avenue and Twenty sixth Street New York states that Mr Charles E Boughton, a member of his family, has been severely afflicted with Epileptic Fits for many years that he was of hopeless recovery but through the blessing used Dr Hart's Vegetable Extract [says Mr P] he was soon restored to perfect health and left the city for the State of Ohio to resume his business

Rev Mr Smith Rector of St Peter's Church Spatswood New Jersey who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract and his health has become so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Secord, Esq of Philadelphia afflicted with Epileptic Fits for twenty seven years and six months—After travelling through England Scotland, Germany, and France consulting the most eminent physicians, and expending for medicine, medical treatment and advice three thousand dollars in vain and with his son to the country in December 1846, without receiving any benefit whatever and was carried by us

HARTS VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance and was advised to take a tour to Europe with him, which I did and visited England I consulted the most eminent physicians, have no respect at his case they examined him and prescribed accordingly I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians and one most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland Germany and France and returned home in the month of November with my son as far from being cured as when I left Call on any your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract seeing your statements and certificates of cures so many cures, some of twenty and thirty years standing and I can assure you, I am not sorry I did so as by those of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason which was so far gone as to unfit him for business entirely restored, with the prospect now before him of life, health and usefulness

He is 28 years of age and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases but thank God is now enjoying good health

Now, sir, faith without works I don't believe in—To say I shall be ever grateful to you is one thing and so I have more than one hundred dollars I have no doubt you will think that very small and quite a different thing The debt of gratitude I shall ever pay, but close accept this amount as interest on the debt to advance Yours very respectfully,

(Signed) WILLIAM SECORD

Please read the following certificate of a highly respectable and aged gentleman

RINDGE N H April 1, 1848

To all whom it may concern.

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my boyhood up to the time of his death and having been his near neighbor can to tify to his medical skill and knowledge of Botany with hundreds of others now living and that in the year 1814 I was afflicted with jaundice palpitation of the heart pain in the side and general debility, so as to be *unable to attend to any business* and being a neighbor of the late Dr Stephen Jewett I had recourse to his far famed *Bitters and Plaster* and by their use was permanently cured Since the above named date, I have used Dr Jewett's medicines with equally good effect as prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rindge N H and I cheerfully recommend them to the public as safe and available medicines—and being composed entirely of vegetables I think them far better adapted to the diseases of our climate than medicines composed of minerals or foreign ingredients I try them and judge from facts and experience The elder Dr Stephen Jewett's *strengthening Plaster* for superior for the external application for the purposes for which it is recommended of any that I have ever known

DR STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions there by purifying the blood and invigorating the digestive organs not only cure diseases that already exist but they also fortify the system against all attacks of disease which are common to mark among those who have used Dr Jewett's Bitters that they have but little fear of being sick The remark is strictly true, for while the stomach and bowels are kept in a good condition and the blood pure all the great predisposing causes are removed and the whole system is fortified against the more morbific influences which under less favorable circumstances would have engendered perhaps fatal disease

In order that the public may know that they are offered a truly excellent article we append the following certificate which may be seen with numerous others in their original by calling on the proprietor

BOSTON, May 15 1848

To all whom it may concern—This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome and was fast undermining my health and had severe pains in the back, loss of appetite, languor and general debility I commenced taking Dr Jewett's Health Restoring Bitters and in a very short time my humors and pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused, either directly or indirectly by diseases of the Lungs and Chest Why is this great sacrifice of human life? How happens it that the brightest intellects of the highest promise the hope and support of declining years are smitten down in early life? Why is it that so many families have become made desolate by that fell destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured, if taken in season

It is true these diseases can be cured with almost absolute certainty—if taken in season Everybody should be aware of this fact and protect themselves with Dr Jewett's Pulmonary Elixer

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all who may have been afflicted as I have that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer I had pain in my left side, sore throat constant cough and raised a good deal of bad looking matter My strength was gone and my flesh was wasting away I took many things without benefit and was steadily getting worse till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs
